Q. No. 2 (i)

**Topic:-** "Islam and Youth"**Summary:-**

Islam has attached extraordinary value and importance to youth and young age. Rasool (P.B.U.H) spent his youth in a dignified and sublime way. Thus he set an example for youth of coming generations to follow path of rectitude in all circumstances and always lead a pious and pure life. He himself was embodiment of modesty and chastity, emphasizing same upon his followers. A chaste, modest and civilized youth is ideal of teachings of Islam. Therefore the youth, being backbone of body of Ummah, must follow the teachings of the beloved Rasool (P.B.U.H) in letter and spirit to attain purity in their character.

Q. No. 2 (ii)

The Rasool (S.A.W) gave high esteem to youth. He always valued them, for example in preparation of Uhud, in reverence to passions and emotions of youth, he went even against his own opinion and decided to face enemy outside the city in an open field. In this way he reposed a strong confidence in them.

Q. No. 2 (vii)

It is mandatory for every muslim to acquaint themselves with Seerat-e-Tayyiba. The youth, being the backbone of body of Ummah must follow teachings of beloved Rasool (S.A.W) in letter and spirit to attain purity in their character and nobility in their soul.

Q. No. 2 (viii)

mandatory: necessary, compulsory  
obedience :- following, move on footsteps  
emphasizing:- creating strong impact  
adherence :- attachment

—(i)—

Q. No. 3 (a)

In this line the poet wants his readers to ~~be~~ remain down to earth. If they have company of rich and powerful man so they should not look down upon common people. They should remain in touch with them and should never be proud of themselves. He says that if you walk with kings so you should not degrade others on bases of their status, only then you will a true Man.

—(ii)—

The poet is repeating the word 'if' to create a strong impact of his words. The whole poem contains many ifs, each providing a new condition. This repetition creates a type of suspense and curiosity in reader and he wants to know the outcome of fulfilling all those conditions and thus a deep interest is developed in the poem.

—(iii)—

In this stanza the poet wants to impress upon his son that if he can keep his virtue in crowds, if he can walk with kings and not lose the common touch, if he does not get emotionally attached with anyone but people depend on him, if he can utilize his each and every second of life with positivity, then the world will be at his finger tips and he will a true Man.

Q. No. 3 (b)

The poet is repeating word 'If' to create a strong impact of his words. The whole poem contains many 'if's' each providing a new condition. This repetition of it creates a type of suspense and curiosity in reader and he wants to know the outcome of fulfilling all these conditions mentioned and thus a deep interest is developed in poem.

-(ii)-

Plot is the most important element of a story and conflict is the soul of plot without which no story can progress and impress its readers. Conflict is basically the fight or quarrel between two opposing forces which creates a suspense and intense mood is created leading to the climax. Conflicts can be of different types such as Man vs Man, Man vs Nature, Man vs self, Man vs technology etc.

Conflict matters a lot because they set the story in action and forms the basis of primary action (rising action) of story. For ex in play 'progress' there was conflict between Ms. Meldon and professor Corrie about destroying formula of bomb created by Corrie. It created suspense in beginning and made everyone curious about the outcome or solution of that outcome which developed interest throughout the novel. In the end the conflict was resolved in

**Q. No. 4 (Page 1/3)**

In this stanza 'Rudyard Kipling' wants to impress upon ~~his son~~ his son that if he can keep his virtue in crowds, if he can walk with kings and not lose common touch, if he does not get emotionally attached with anyone but people depend on him, if he can utilize each and every second in useful way then he will a true Man. The world will be at his fingertips and he would rule it.

## Atomic and Nuclear Energy:-

"Science unlocks for mankind, a store of Nature".

Today is the era of science. Science is ruling the world and we can every where find its applications.

Energy is the basic need for doing scientific experiment and run the appliances. Energy basically comes from two sources. Renewable and non renewable sources.

As the time is passing the source of energy are declining at alarming rate due to sudden increase in population of world which increased the use of energy sources. Scientist were very worried for the upcoming generations and by dint of hard work they discovered nuclear energy as being the most powerful form of energy. After lots of years

**Q. No. 4 (Page 2/3)**

is said to have the strong defense system.

Nuclear energy is produced in nuclear reactions and by process of radioactive decay.

The first time nuclear energy was used by United States of America during World War II, in a very destructive way. They used it to defeat Japan. Two nuclear attacks were done on Hiroshima and Nagasaki which caused a large scale destruction. Its effects are still prevailing.

It caused abnormal growth of children. No crops can be cultivated and people were injected with different diseases including cancer. Pakistan became the seventh country of world and first Islamic country to have nuclear power in 1998 because of Dr. Abdul Qadeer Khan.

Nuclear energy can be used in very constructive way. If we do nuclear reactions in controlled manner as in reactors so we can utilise this energy to overcome our daily life needs. The heat generated during fission of 1kg of Uranium equals the energy released by burning of 3000 tons of coal. This enormous amount of energy can be used to produce electricity, run turbines and as a fuel for many appliances, but on other hand this energy is exposed to humans in form of

**Q. No. 4 (Page 3/3)**

finding ways to utilise this energy in a safe way. Still they have not succeeded. Some countries that use this energy for betterment of their people are those which are very rich. Poor countries cannot afford to produce nuclear energy, so question of using it does not arise.

Pakistan being a nuclear power has no resources to use this energy. The scientists have predicted that sources of energy such as coal, petroleum will soon be ended in next 20 to 30 years and then whole world will have to rely on these kinds of sources of energy.

Therefore scientists should devise an economical method for production and use of nuclear energy. Energy from nuclear radiation is also used in hospitals to treat cancer patients and many treatments have got successful but again the same thing arises that only very very rich countries like US, Japan can afford them.

It is also estimated that if nuclear energy is used then pollution can also be controlled because nuclear reactions do not release greenhouse gases & other pollutants in environment and is fully according to principles of green chemistry which aims to use such products which minimize pollution. It is hoped that in next 10 to 15 years

Q. No. 5 (a)

The teacher asked the boys who had stolen the bag which was lost the previous day. If any of the boys came with clue, he would save himself from the punishment. But neither of the boys was guilty for this misconduct.

Q. No. 5 (b) **Apple of Discord**:- Hosting the olympics game was apple of discord between two countries.

**Maiden speech**:- He cut a fine figure in his maiden speech.

**Give vent to**:- His remarks about government gave vent to rebellion.

**In good books**:- Because of his efforts he will always be remembered in good books.

**Lend a hand to**:- He always lends a hand to needy people.

**ways and means**:- There are many ways & means in which you can utilise your knowledge

Q. No. 5 (c)

The king asked people if they were angry because they had lost their leader. He further said that he was their king and he would be their leader. An old man neglected him by saying that he was an imposter not a king.

Q. No. 6 (Page 1/3)

**Date:** 21<sup>st</sup> June, 2022.

**To :** The Chairman Park and Horticulture Authority

**From:** The research officer, meteorological department.

**Subject:** Condition of Parks in Area A.B.C

### Introduction:

Parks are a sort of recreation to people and they love to spend their leisure time with their close people in parks and enjoy them. As per your directive, I had made a deep research on conditions of park in my area (A.B.C) and was shocked with the findings. My report is as under.

### Observations:-

I made surprise visits to the parks with my team and surveyed everything. We also made a survey from the people of societies X.Y.Z and D.E.F. We came to know that people had many complains. The condition of parks is miserable and there is no cleanliness. Trees are very scanty and there is stagnant water in the parks. ~~which~~ There are no security guards a no proper maintenance. This is causing increase in pollution and spread of diseases due to unhygienic conditions. People have left to visit parks. My data regarding the conditions in

**Q. No. 6 (Page 2/3)**

Months	Parks	Trees planted	state of cleanliness
January	A, B, C	0, 30, 20	poor, poor, poor
February	A, B, C	10, 40, 10	poor, poor, poor
March	A, B, C	6, 10, 20	poor, poor, poor
April	A, B, C	50, 60, 45	satisfactory, poor, poor

**Causes:**

The main causes for this hectic condition of parks are

- low budget
- lack of accountability of responsible officers
- uncompromising attitude of officers
- unawareness among people about importance of cleanliness
- almost no plantation growth
- Not proper use of money by officers.

**Conclusion:**

Sir, I have tried my level best to make you aware of this issue and prepare report on basis of ground realities. This data can also be verified. Further this problem should be given high priority. Some of the suggestions are as under.

**Suggestions:-**

1. Committees should be made for developing up parks

**Q. No. 6 (Page 3/3)**

4. Budget should be increased.

5. responsible officers should be made accountable.
