No. FBISE /HSSC/C/Online/ CBES/095

Dated 22-02-2023

Subject: **COMPUTER BASED EXAMINATION SYSTEM (CBES) AT HSSC ANNUAL EXAMINATION 2023.**

Respected Sir/Madam,

It may be appreciated that FBISE is continuously striving for the best use of technology for qualitative improvement in its Examination system and standards. In this spirit, besides many other initiatives like Question Item Bank (QIB), Digital Attendance Monitoring System (DAMS) and On Screen Marking etc., FBISE has successfully conducted Computer Based Examinations in the subject of Computer Science at HSSC level in four international examination centres in its 1st and 2nd Annual Examinations 2022, where the students attempted their papers (both objective as well as subjective portions) on computer instead of paper (Answer Script).

02. Keeping in view the feedback of the successful pilot implementation of Computer Based Examination System (CBES), FBISE is now planning to extend the CBES to more institutions/students as well. In this regard your good self is requested to forward your consent about appearance of students of your esteemed institution in Computer Based Examination System in the subject of Computer Science at HSSC part-I and II levels.

03. Following arrangements are required at the institution for the CBES:

- i) Availability of computer systems (with good specification) as per strength of candidates
- ii) Availability of Internet during the examination
- iii) Availability of uninterrupted power supply during examination
- iv) Configuration with the local server, cloud server through public and private IP
- v) Student must have basic computer knowledge.

CONTROLLER OF EXAMINATIONS

All heads of Affiliated institutions at HSSC level (within Pakistan and abroad)

Copy to:

- i. PA to Chairman
- ii. APS to Secretary
